Board Member
MESSAGE

By Connie Masuoka

It has been a year, literally and figuratively since I last took my turn at the front page of the newsletter with the board member’s message. At the time we were well into the COVID Pandemic and I shared in my message my feelings of fear of the unknown and loss of personal contact. And because I am a healthcare provider (my go to message is always about prevention) I also mentioned techniques on how to prevent getting sick and ways to cope and maintain mental wellness in such dark and scary times.

Now, a year later my spirit has been lifted because I did not get sick, and I am now fully vaccinated. I have visited some of my older friends/family who also been vaccinated. I feel that the cloud of COVID19 has lifted for me but sadly the cloud of Anti-Asian/AAPI hate has persisted fueled by the pejorative rhetoric of past President Trump, government officials and the far-right media which has resulted in a 150% increase in reported hate crimes against Asian/AAPI across the nation.

Anti-Asian/AAPI hate is nothing new I have lived with it all my life. At times I don’t feel it as much, but I always know it is present. It is a part of our collective history; even with all the efforts of those who came before it has been impossible to totally eradicate the hate. Mostly because anti-Asian/AAPI hate is just a flavor of hate(discrimination/prejudice).

Continued on Pg. 2
Continued from Pg. 1

Hate extends to all people of color and anyone deemed as “other” whether by gender, national origin, physical disability, religious belief, sexual orientation, or status.

Right now, these acts of hate against Asian/AAPI feel overwhelming and paralyzing but there is something you can do to push back against the hate; report any incidents of bias or hate crimes. By reporting your experience (or helping someone to report) you provide information so that it can inform for better protection, educational resources and policies that would ultimately end hate.

Maybe you are thinking what can I report? Reports fall into two categories:

1) incidents of bias and
2) hate crimes. Incidents of bias can be verbal, physical, or visual and are language, actions or acts that contribute or create and unsafe or unwelcoming environment.

This could include:
• Name calling; racial, ethnic or other slurs to identify someone.
• Creating racist or derogatory images.
• Physically mocking someone with a disability or imitating someone’s cultural norm or practice. Hate crimes are described by Oregon law as crimes motivated by bias against another person’s race, color, disability, religion, national origin, sexual orientation, or gender identity.

This could include:
• Assaulting, injuring or even touching someone in an offensive manner because of their perceived protected class.
• Creating racist or derogatory graffiti on someone else’s property based on their perceived protected class.
• Threatening to physically harm a person, their family, or their property based on their perceived protected class (Oregon Department of Justice - doj.state.or.us).

Locally you can report incidents of bias(hate) to the Department of Justice through:
Victims Hotline for Bias Crime
1-844-924-BIAS (2427)
or online at:
justice.oregon.gov/CrimeReporting/BiasCrime

Nationally you can report to a nonprofit called:
Stop AAPI Hate

The Portland JACL board members are currently working on coalition building, public education and advocacy on civil rights and against anti-Asian hate, developing programs for community building and safety. We would love to have your help. If you have the interest to do more, please contact us at:

Shikata Ga Nai: An Inconvenient American

Portland JACL General Meeting (Virtual)
June 13, 2pm

Shikata Ga Nai: An Inconvenient American (https://youtu.be/8w3N8ijCiaQ) is Lauren Yanase’s exploration of her family’s history. It follows the story of the Kato family during World War II as Japanese Americans along the West Coast were being forcefully removed into incarceration camps.

Lauren attends Bennington College. She graduated high school from St. Mary’s Academy in Portland and has previously written creative fiction and nonfiction accounts of Japanese American internment and has been recognized regionally and nationally for her writing. In 2019, she earned the Girl Scout Gold Award for her documentary about the Japanese American internment. This is a prestigious honor, with fewer than six percent of Girl Scouts worldwide earning this award.

If you’re interested in this event please RSVP to Marleen@pdxjacl.org.

With the pandemic of COVID-19, many of the most vulnerable lost their access to food pantries. This is particularly true for people of color—including low-income Asian elders living in Downtown Portland, Oregon.

This projection is a collaboration among St. Stephen’s (Clay Street Table), The Giving Tree, and Asian Health and Services Center—who was seeking resources for food for low-income seniors living in Downtown Portland. Clay Street Table already had a walk-up pantry before the pandemic and worked with the Giving Tree to quickly convert to home deliveries to safeguard these vulnerable residents, especially since the closest Asian grocery stores are at least 30 min away by public transit. These elders could not get to items like tofu, bean curds, fish sauce, and Asian vegetables like bok choy, napa cabbage, etc.

In April (early in the pandemic), Clay Street Table—as a partner of Oregon Food Bank—received a grant to subsidize the first Asian Pantry! We used the $4000 to initiate a culturally-specific Asian food pantry delivery to the elderly. They were so grateful and delighted to receive food which brought them comfort and reminders of their heritage, ingredients with which they are familiar and can easily cook. The grant was also supplemented by the Chinese American Citizens Alliance with its members donating over $1000. On average, with the coordination from Asian Health and Service Center, we are serving 160+ Asian household, 250 elderly residents of Chinese and Korean heritage with 320+ bags of grocery each month, which costs about $6000 to $7000 per month.

Because we are solely dependent on food sourced from the Oregon Food Bank, it is unlikely that any authentic Asian food, especially fruits and vegetables, will ever be available. While OFB is able to provide majority of the items like rice, cooking oil, tuna, etc, we are asking for your help so we can provide Asian-specific items, which will cost approximately $4500 per month. This will allow us to purchase Chinese and Korean ethnic items, much of them produce and fruit. That is only $26.47 per Asian household served per month!

With the resurgence of COVID-19 positive cases in the Portland metro area and the high likelihood of the pandemic continuing well into the fall, we need your help to bring some comfort and joy to the low-income Asian elders. Please help with your monetary donation, share this on your social media platforms, and volunteer your time to pack and deliver the groceries. We will get through this together!
